PREPARE

Budget

Making a budget for our road trip is like planning how we will spend our money. It is always necessary to make a budget for any trip to avoid disappointment and incidents in between trips. We split it into 4 categories: Food, Fuel, Accommodation and Miscellaneous expenses.

Road Trip

In this we have data about road trip like Safety, Tourism Appeal and Weather Preferences. We must need data to have a smooth and pleasant trip. We represent data by graphs.

Destination

By calculating budget and by analysing the data of road trip we put Top 3 Best Destination places in front of our group. This contains Top 3 contains high percentage of state safety rating, pleasant weather Preference and Tourism Appeal.

Experience

Past experience is good to enhance upcoming trips and making less mistakes. We observed that offline booking is slightly cheaper than online booking by bargaining with receptionist. Don't forget to take sunscreen in trip so after finishing trip our family can recognise us.

PROCESS

For a perfect trip we have to go through the process which called “WH words”

Like “**WHEN WHERE HOW**”

When: first we have to figure out in which season we will go out for the trip because India has complex seasonal climate, we have to look forward for the weather

Where: In the land of colors we have to find the best destination for our trip

How: Then we have to look around for the mode of transport i.e. train, plane, or car/cab

ANALYZE...

Expenses Category

■ food
■ Fuel

Food

We allotted 20% expensive for food which necessary in trip. It include water and drinks too.

Fuel

The largest share, 40%, is dedicated to fuel because in fuel is soul of road trip without it we can't get achieve anything.

Accommodation

We Alloted 25% to accommodation guarantees us comfortable stays during the road trip. This category covers hotels, motels, or any overnight arrangements, enhancing the overall travel experience.

Miscellaneous

The remaining 15% is reserved for miscellaneous expenses, including tolls and emergencies. This flexible allocation accommodates unforeseen circumstances and provides a safety net for unexpected road trip events.
